Growing care in our community since 1947

Eskleigh started as a not-for-profit organisation over 70 years ago right here in Tasmania, with a mission to care for Tasmanians living with a disability.

Today, Eskleigh is one of Tasmania's most experienced disability providers. We provide a range of services from high needs based care in our group homes to in-home support, community nursing and respite care options as well as a range of day activity programs.

All Eskleigh services can be accessed through the National Disability Insurance Scheme (NDIS),

the Motor Accidents Insurance Board (MAIB), Disability Support for Older Australians Program (DSOA) or can also be funded privately.

While much has changed in the disability support sector over the last 70 years, Eskleigh is still not-for-profit and still providing the best in care to Tasmanians right across the state.

If you have questions about Eskleigh support and services or your funding options, visit our website or contact us today:
